

Fieldwork weekly list, redacted sample

Six of the twenty two businesses delivered in week two. Accra delivery and logistics, 2 September 2026.

Business names and phone numbers are masked. Every other field is exactly what the client received.

RECORD 1 OF 6	
Business	<i>Electrical wholesaler</i>
What they sell	Lighting and electrical materials wholesale
Area	Central Accra
Phone	<i>XXX XXX XXXX / XXXXXXXXXXXX (WhatsApp)</i>
WhatsApp	Yes
Why they need calling now	They posted their own early morning delivery run to Kumasi and thanked the customer publicly. They are already driving intercity trips themselves, which is the clearest sign there is that delivery is coming out of their own pocket.
Last seen active	27 August 2026
Evidence	Google Business Profile, 5.0 rating, plus Facebook
Priority	1

RECORD 2 OF 6	
Business	<i>Cold store</i>
What they sell	Frozen meat and frozen foods, wholesale and retail
Area	Accra
Phone	<i>XXX XXX XXXX / XXX XXX XXXX / XXXX XXX XXX</i>
WhatsApp	Yes
Why they need calling now	Frozen goods with bulk and wholesale deals advertised and doorstep delivery promised in their own words. Cold chain means a late run is written off stock rather than a late parcel.
Last seen active	3 weeks ago
Evidence	Instagram [handle withheld], plus Facebook, 1.9k followers
Priority	1

RECORD 3 OF 6	
Business	<i>Medical supplier</i>
What they sell	Medical supplies, orthopaedic products and diagnostics
Area	East Legon, Accra
Phone	<i>XXX XXX XXXX</i>
WhatsApp	Yes
Why they need calling now	Freshest activity on the whole sheet and a named trading address. They stock sterile consumables for clinics and labs, which get reordered on a short cycle and cannot wait.
Last seen active	6 days ago
Evidence	Instagram [handle withheld]
Priority	1

RECORD 4 OF 6	
Business	<i>School supplies wholesaler</i>

What they sell	School supplies and textbooks wholesale
Area	Kasoa, Greater Accra
Phone	XXXX XXX XXX
WhatsApp	Yes
Why they need calling now	They ask buyers to send quantities on WhatsApp for a wholesale quotation and they run their own web shop with delivery. School supplies spike hard at term time, so their delivery load is seasonal and lumpy, which is exactly when an outside courier gets said yes to.
Last seen active	1 week ago
Evidence	Instagram [handle withheld], plus [site withheld]
Priority	1

RECORD 5 OF 6

Business	<i>Book printer</i>
What they sell	Book publishing and bulk printing
Area	Accra
Phone	XXX XXX XXXX / XXX XXX XXXX
WhatsApp	Yes
Why they need calling now	A publisher with a Google listing, a 4.6 rating and a fresh post about bulk printing. Print runs are heavy, arrive all at once and have a deadline attached, which is a courier job rather than a rider job.
Last seen active	1 week ago
Evidence	Google Business Profile plus Instagram [handle withheld]
Priority	2

RECORD 6 OF 6

Business	<i>Building materials wholesaler</i>
What they sell	Scaffolding and building materials wholesale
Area	Sakumono, Accra
Phone	XXXXXXXXXX
WhatsApp	Yes
Why they need calling now	Wholesale building materials sold to contractors, engineers and construction companies. Worth calling only if your vehicles can take bulky loads, which is the open question on your side.
Last seen active	13 August 2026
Evidence	Instagram [handle withheld]
Priority	3

IN SHORT

Businesses on this sample **6**
 Businesses on the real week twc **22**
 Delivered so far, weeks one and **40**
 Sent to the client twice **0**

Redacted sample

What this is	Six businesses lifted straight out of a sheet delivered to a paying client on 2 September 2026. Nothing has been rewritten or improved for display. The real sheet is a wide table, one business per row. This version turns each one on its side so it can be read.
What is hidden	The business name becomes a trade label. The phone number keeps its shape and loses its digits. Social handles and web addresses are withheld from the evidence line. The area is cut back to the district, because the real sheet gives the street and the plot so a driver can find the place, and street plus trade would name the company.
Why	The list is what the client pays for, so handing over the names would hand over the product. The numbers are personal contact data covered by the Data Protection Act 2012, which is not ours to publish whatever the client agrees to.
What is not hidden	The trade, the district, the WhatsApp flag, the reason to call, the date last seen active, the evidence source and the priority. Those are the fields that show whether the work is any good, so hiding them would defeat the point of showing you anything.
The one rule	No business goes on a sheet unless it showed a dated sign of life in the previous thirty days. The date is in the Last seen active field and the Evidence field says where to check it. In week one, 31 of 49 businesses failed that test and were not sent.
What you would get	Twenty to thirty businesses a week, in this format, built to your description of your customer rather than pulled from a directory. Nobody is ever sent to you twice.
